AGENDA FOR EXAMINER INTERVIEW

Hi Examiner Nguyen:

During the interview, I would like to discuss the following points. Please give me a call at the number below to schedule the interview. My schedule is generally open from 2 PM to 8PM EST.

A. Discuss Rejection of Claim 1

> Which element in the Chau reference teaches a selection envelope?

> Which element in the Chau reference teaches a selection command? How is that element associated with the element the Examiner alleges to be a "selection envelope"?

> Where does the Chau reference disclose that successive application of the UDF Update () function *"narrows said content to be enclosed by a corresponding selection envelope* corresponding to the selection command,"* as required by the method of claim 1?
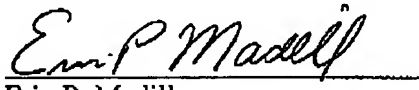

B.   Discuss Rejection of Claim 10

> Where does the Chau reference teach or even hint at the concept of defining a child selection envelope if said first content is not said desired content?

Respectfully submitted,

INGRASSIA FISHER & LORENZ
